- Worked on project description
    - Added switch configurations
- Worked on project analysis
- Configured some devices in GNS3

6/3/2022

- Configured the Kali Linux machine
    - IP address
- Used Nmap to scan a subnet on the network
- Added to description

Name(s): Lane Sidner

Summary – Week ending: 6/12/2022

Date	Start Time	End Time	Description	Total Hours
6/6/22	12	2	Configured ubuntu server	2
6/7/22	12	2	Worked on some documentation	2
6/8/22	1	4	Worked on connecting GNS3 to internet	3
6/9/22	1	4	Configured R2, Kali, and Ubuntu	3
			Total Hours This Week	**10**
			Total Hours to Date	**35**

Journal Details

6/6/2022

- Configured ubuntu server
    - Downloaded apache2
- Used/tested pen-testing tools on the network
    - Nmap
    - Metasploit
        - Psnuffle

6/7/2022

- Worked on documentation
    - Project description
    - Ubuntu server configuration
    - Kali server configuration

6/8/2022

- Worked on connecting gns3 to the internet
    - Added a cloud node to the topology
    - Connected to R2
    - Default static route to internet via 192.168.83.2
- Tested connectivity by issuing the ping command for the google.com IP address from R2

6/9/2022

- Routed R1 and R3 to internet using default static routes
- R2 was configured for NAT
- Ubuntu was set up for Apache
    - Changed default page

Name(s): Lane Sidner

Summary – Week ending: 6/19/2022

Date	Start Time	End Time	Description	Total Hours
6/13/22	1	4	Reinstall Virtual Machines	3
6/14/22	12	4	Used pen-testing tools	4
6/15/22	2	4	Worked on documentation	2
			Total Hours This Week	**9**
			Total Hours to Date	**44**

Journal Details

6/13/2022

- Had to reinstall the VMs that were corrupted
    - Ubuntu
    - Kali Linux

6/14/2022

- Nmap scan of R3 subnet
    - 192.168.40.0/24
- Metasploit password scan
    - Auxiliary/sniffer/psnuffle
    - Found password for ubuntu server user
- SSH login to the Ubuntu Server
    - Located the /etc/shadow file
    - Copied the file to the user's home directory
        - Renamed file
    - Changed permissions
- ftp to the Ubuntu server
    - retrieve the password file
- John The Ripper
    - Crack the password file
        - Takes a while to crack

6/15/2022

- Worked on documentation
    - Description
    - Analysis

Name(s): Lane Sidner

Summary – Week ending: 6/26/2022

Date	Start Time	End Time	Description	Total Hours
6/21/22	11:30	1:30	Worked on testing documentation	2
6/22/22	1	3	Worked on documentation	2
6/23/22	12	2	Worked on presentation	2
6/24/22	2	5	Worked on presentation	3
			Total Hours This Week	**9**
			Total Hours to Date	**53**

Journal Details

6/21/2022

- Worked on testing documentation
- Organized binder documents
- Created references word document

6/22/2022

- Worked on finalizing testing documentation
- Edited the description to include the access-list configuration
    - ACL 100
- Edited the analysis to include ACL 100

6/23/2022

- Worked on presentation
- Edited analysis

6/24/2022

- Worked on presentation
- Recorded videos
